

## HIGHLIGHTS AND OBJECTIVES

- **A Global Multi Asset Solution:** A global multi asset solution that dynamically participates in all the major asset classes and sectors.
- **Consistent Returns Regardless of Market Conditions:** Tactically positioning in the asset classes/sectors with the best potential to out-perform.
- **Dynamic Rebalancing to Manage Downside Risk:** Riskswitch™ indicator to identify risk on/risk off regimes.
- **Low-correlated Returns:** The strategy aims to deliver attractive returns with low correlation with equity markets, especially during bear markets.

## BENEFITS

- The strategy targets double-digit absolute return with moderate level of risks
- Diversification: the strategy has a long-term beta of about 0.25 vs. US equity markets
- Daily Liquidity and complete transparency

## GROWTH OF A \$1,000 (GROSS)

## MONTHLY RETURNS (GROSS)

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	YTD	HFRI Composite Index

## DISCLOSURES

This fact sheet is for the purpose of information exchange. This is not a solicitation or offer to buy or sell any security. You must do your own due diligence and consult a professional investment advisor before making any investment decisions. The use of a proprietary technique, model or algorithm does not guarantee any specific or profitable results. **Past performance is not indicative of future returns.** The performance data presented are gross returns.

The risk of loss in trading securities can be substantial. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition. All information posted is believed to come from reliable sources. We do not warrant the accuracy or completeness of information made available and therefore will not be liable for any losses incurred.

**The investment performance shown on this page for the Julex Dynamic Diversified Index is HYPOTHETICAL.** It is based on the back tests of historical data. Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example, the ability to withstand losses or adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the presentation of hypothetical performance results and all of which can adversely affect actual trading results.

### Note on Data

In the back test, we used the index returns in case the historical returns of the ETFs are not long enough. The ETF returns were approximated by index returns subtracted by their respective expense ratios. The following summarizes the detailed calculations:

(1) IWM: Russell 2000 Index - 20bps before 5/31/2000; (2) EFA: MSCI EAFE Index - 34 bps before 8/28/2001 (3) VWO: MSCI EM Index - 15 bps before 4/29/2005; (4) VNQ: MSCI US REIT Index - 10 bps before 10/29/2004; (5) MLPI: Alerian MLP Infrastructure Index - 85 bps before 5/28/2010; (6) GLD: London Gold Fixing - 40 bps before 12/31/2004; (7) JNK: Barclays Capital US High Yield Index - 40 bps before 1/31/2008; (8) AGG: Barclays Capital US Aggregate Index - 8 bps before 10/31/2003; (9) IEF: Barclays Capital US Treasury Index - 15 bps before 8/30/2002; (10) TLT: Barclays Capital 20+ year US Treasury Index - 15 bps before 8/30/2002; (11) SHV: Three-month T-bill before 02/28/2007; (13) DVY: Dow Jones US Select Dividend Index - 39 bps before 12/31/2003; (14) EMB: JP Morgan EMBI Global Core Index - 60 bps before 1/31/2008; (15) PFF: S&P US Preferred Index - 47 bps before 4/30/2007; (16) BKLN: S&P/LSTA Bank Loan Index - 65 bps before 4/29/201; (17) IVE: S&P 500 Value Index - 18 bps before 6/30/2000; (18) IWV: S&P 500 Growth Index - 18 bps before 6/30/2000; (19) IWS: Russell MidCap Value Index - 25 bps before 9/28/2001; (20) IWP: Russell MidCap Growth Index - 25 bps before 9/28/2001; (21) IWN: Russell SmallCap Value Index - 25 bps before 8/31/2000; (22) IWO: Russell SmallCap Growth Index - 25 bps before 8/31/2000; (23) DJP: Dow Jones UBS Commodity Index - 75 bps before 11/30/2006; (24) RWX: Dow Jones Global Real Estate Index - 59 bps before 1/31/2007; (25) S&P Latin America 40 Index: 12/2000-10/2012; (26) MSCI Mexico Index: 12/1997-10/2012; (27) MSCI Korea Index: 12/1998-10/2012; (28) MSCI South Africa Index: 12/1998-10/2012; (29) iShares FTSE China 25 ETF: 10/2004-10/2012; (30) DAX Global Russia Index: 09/2001-10/2012; (31) MSCI Chile Index: 12/1997-10/2012; (32) MSCI Malaysia Index: 12/1998-10/2012; (33) MSCI Taiwan Index: 12/1998-10/2012; (34) MSCI India Index: 12/1998-10/2012; (35) MSCI Indonesia Index: 12/1998-10/2012; (36) MSCI Turkey Index: 12/1997-10/2012; (37) MSCI Thailand Index: 12/1997-10/2012; (38) S&P BMI Emerging Market Small Cap Index: 12/1997-10/2012; (39) WisdomTree Emerging Market High-Dividend Index: 5/2007-10/2012; (Source: Bloomberg, Yahoo, Julex Capital)
