"We are delighted to be recognized as "Top Guns" manager by Informa Investment Solution," says Dr. Henry Ma, CFA, President and Chief Investment Officer of Julex Capital. "Being consistently ranked among the top managers over the years provides a strong validation for our unique [adaptive investment approach](#). After a nine-year bull market, stocks are becoming more expensive. Many investors are looking for investment solutions that can manage the downside risk in a bear market without missing out the upside potentials if the bull market continues. Our tactical strategies offer excellent solutions."

[The Julex Dynamic Income Strategy](#) is a multi-asset tactical income strategy that seeks to provide high income as well as capital preservation. It strives to achieve better returns than the Bloomberg Barclays Aggregate U.S. Bond Index with comparable volatility and peak-to-trough drawdowns. The strategy invests in exchange traded products ("ETPs") of income-producing assets including dividend-paying equities, preferred shares, real estate, bank loans, high yield, emerging market, corporate and Treasury bonds. The strategy tends to perform well in both rising and declining interest rate environment and can be utilized as a good enhancement to a fixed income allocation.

[The Julex Dynamic Sector Strategy](#) is a U.S. equity sector/style and bond/cash rotation strategy that seeks to provide downside risk management while maximizing upside participation. It strives to achieve better returns than the Dow

Upside Participation, Downside Management

Jones Moderate U.S. Index and S&P 500 Index over a market cycle with lower volatility and peak-to-trough drawdowns. The strategy is 100% tactical and can be utilized as a portfolio overlay to reduce risks and enhance returns in the long run.

[The Julex Dynamic Emerging Market Strategy](#) is a tactical emerging market country rotation strategy that seeks to deliver upside participation in the EM equity markets while limiting the downside exposures during the market downturns. It strives to achieve better returns than MSCI EM Index over a full market cycle with lower volatility and peak-to-trough drawdowns. The strategy invests in exchange traded products ("ETPs") of emerging market countries and provides a liquid alternative solution to investors who are interested in gaining an EM exposure.

About Julex Capital Management

Founded by industry veterans, Julex Capital Management, LLC is a tactical investment management firm dedicated to creating innovative solutions for institutions, investment advisors and individuals. Julex offers a variety of dynamic risk-managed investment strategies that are designed to deliver consistent returns with low volatility and drawdowns in both bull and bear markets. Its current strategies include equity sector rotation, multi asset, income, real asset, international equity and absolute returns.

Adaptive Investment Approach

After the great recession in 2008, more and more investors have moved away from "buy-and-hold" to a more tactical approach to portfolio management. Julex Capital Management pioneers an Adaptive Investment Approach to help investors to limit downside risks while participating in market upsides. The adaptive investment approach, under which investors can adjust their investments to reflect economic regimes, ongoing market trends or market volatility, has the potential to deliver consistent returns in both bull and bear markets by dynamically positioning in the asset classes perceived to have the best returns.
