

HIGHLIGHTS AND OBJECTIVES

- True Alpha: A quantitative process aiming to generate stock selection alpha unrelated to value, size or momentum;
- Concentrated Alpha-Oriented Portfolio: A concentrated portfolio with highly selective 20-40 stocks positioning to deliver significant alpha with a high active share and average tracking record;
- Stocks For the Long-Run: Selection of high quality companies which are undervalued, profitable and safe.

MULTI FACTOR SEQUENTIAL SCREENING

Julex pioneers a unique approach which intergrates a three step robust investment process to help generate consistent returns.

Julex Capital Management, LLC is an independent SEC-registered investment management firm that is not affiliated with any parent organization. Julex Capital Management, LLC claims compliance with the Global Investment Performance Standard - verified by ACA Performance Services.

Disclosures

This fact sheet is for the purpose of information exchange. This is not a solicitation or offer to buy or sell any security. You must do your own due diligence and consult a professional investment advisor before making any investment decisions. The use of a proprietary technique, model or algorithm does not guarantee any specific profitable results. Past performance is not indicative of future returns. The performance data presented are gross returns. The risk of loss in trading securities can be substantial. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition. All information posted is believed to come from reliable sources. We do not warrant the accuracy or completeness of information made available and therefore will not be liable for any losses incurred.

The investment performance shown on this page for the Julex TrueAlpha™ Large Cap strategy is HYPOTHETICAL. It is based on the back tests of historical data. Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profit or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example, the ability to withstand losses or adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or the implementation of any specific trading program which cannot be fully accounted for in the presentation of hypothetical performance results and all of which can adversely affect actual trading results.

Note on Data

In the back test, we used the index returns in case the historical returns of the ETFs are not long enough. The ETF returns were approximated by index returns subtracted by their respective expense ratios. The following summarizes the detailed calculations: (1) IWM: Russell 2000 Index - 20bps before 5/31/2000; (2) EFA: MSCI EAFE Index -34 bps before 8/28/2001 (3) VWO: MSCI EM Index - 15 bps before 4/29/2005; (4) VNQ: MSCI US REIT Index - 10 bps before 10/29/2004; (5) MLP: Alerian MLP Infrastructure Index - 85 bps before 5/28/2010; (6) GLD: London Gold Fixing - 40 bps before 12/31/2004 (7) JNK: Bloomberg Capital US High Yield Index - 40 bps before 1/31/2008; (8) AGG: Bloomberg Capital US Aggregate Index - 8 bps before 10/31/2003; (9) IEF: Bloomberg Capital US Treasury Index - 15 bps before 8/30/2002; (10) TLT: Bloomberg Capital 20+ year US Treasury Index - 15 bps before 8/30/2002; (11) SHV: Three month T-bill before 02/28/2007; (12) DIVY: Dow Jones US Select Dividend Index - 39 bps before 12/31/2003; (13) EMB: JP Morgan EMBI Global Core Index - 60 bps before 1/31/2008; (14) PFF: S&P US Preferred Index - 47 bps before 4/30/2007; (15) BKLN: S&P/LSTA Bank Loan Index - 65 bps before 4/29/2001; (16) IVE: S&P 500 Value Index - 18 bps before 6/30/2000; (17) IWV: S&P 500 Growth Index - 18 bps before 6/30/2000; (18) IWS: Russell MidCap Value Index - 25 bps before 9/28/2001; (19) IWP: Russell MidCap Growth Index - 25 bps before 9/28/2001; (20) IWN: Russell SmallCap Value Index - 25 bps before 8/31/2000; (21) IWO: Russell SmallCap Growth Index - 25 bps before 8/31/2000; (22) DJP: Dow Jones UBS Commodity Index - 75 bps before 11/30/2006; (23) RWX: Dow Jones Global Real Estate Index - 59 bps before 1/31/2007 (Source: Bloomberg, Yahoo, Julex Capital)
